SUMMARY

Fresh graduate in Informatics Engineering from Universitas Teknologi Bandung with passion for programming and design. Experienced in UI/UX design from wireframing and prototyping to creating design systems with Figma. By leveraging my technical skills and desire to keep learning, I am ready to contribute, grow, and transform ideas into innovative user-centered solutions in a dynamic work environment.

PROJECT

Foodly

UI/UX Designer *Apr 2026 – May 2026*

- Created a mobile food delivery application interface using Figma.
- Defined user flow covering the end-to-end journey from app entry to order completion.
- Created all major screens in high fidelity mockups.
- Designed UI components, color palette and iconography to provide visual consistency across the interface.
- Created an interactive prototype to simulate real user navigation.

Luxora

UI/UX Designer *Jun 2025 - Jul 2025*

- Designed web marketplace application interface for new and preloved fashion items with Figma.
- Designed the user flow and interface for the buyer side, including authentication, homepage, landing page, checkout flow, payment methods, user profile, and order tracking.
- Design user flow and interface for seller side including authentication, dashboard, order and product management, customer data, transactions, seller profile.
- Created interactive prototypes to simulate end-to-end flow of website for both buyer and seller journeys.

OXI (Owner XMAX Indonesia)

UI/UX Designer *Apr 2025 - May 2025*

- Design mobile app interface for XMAX motorcycle community using Figma.
- Translated functional and non-functional requirements into interface designs tailored to community needs.
- Designed interface screens for splash screen, authentication, event listings, shopping, articles and members.
- Created interactive prototypes to demonstrate the complete user flow of the application.

EDUCATION

Universitas Teknologi Bandung **Sep 2021 - Aug 2025**

Bachelor of Computer Science - GPA 3.42/4.00

- Thesis Title: *Pembangunan Aplikasi Finfix Untuk Pencatatan Keuangan Berbasis Android*
- Courses: Database, Data Mining, Web Development, Android Development, Algorithms, Ethical Hacking, Computer Networks, Network Security, and Internet of Things (IoT).
- Programming languages and Tools: Linux, SQL, Python, HTML5, JavaScript, CSS3, and Java.

ORGANIZATION

Himpunan Mahasiswa Teknik Informatika **Mar 2024 - Jan 2025**

KOMINFO, Creative Media Staff - Universitas Teknologi Bandung

- Managed TikTok and Instagram accounts of *Himpunan Mahasiswa Teknik Informatika* (HIMATIF).
- Create promotional and information content through TikTok and Instagram.
- Planned, coordinated, and executed various organizational events, from planning to final evaluation.
- Led a division in a specific event by coordinating team members and managing divisional activities.

SKILLS

- **Soft Skills:** Adaptive, Communication, Decision Making, Leadership, Problem Solving, Teamwork, and Time Management.
- **Hard Skills:** Wireframing, High-fidelity mockup, Prototyping, User research, Prototyping, User Flow, and Interaction Design.
- **Tools:** Figma, Adobe Premiere Pro, Adobe Photoshop, Canva, Microsoft Office / Google Workspace, Notion, and Trello.
- **Certificate:** Bangkit Academy 2023, Network Security Associate, and Project Integration Methodology of Excellence, and TOEFL.
- **Language:** English at advanced level.
