## SUMMARY

Fresh graduate in Informatics Engineering from Universitas Teknologi Bandung with a passion for Android development and design. Skilled in Mobile Development, UI/UX, and Front-End Development. Known as an individual with visually creative, problem-solving, teamwork, and adaptive. By leveraging my skills and organizational experience, I am ready to contribute and give my best in a dynamic work environment.

## PROJECT

Project	Role	Period
<b>Luxora</b>	<b>UI/UX Designer</b>	<b>Remote</b> <i>Jun 2025 - Jul 2025</i>
		• Designed and prototyped a web marketplace application interface using Figma. • Created the buyer-side interface featuring authentication, homepage, checkout process, payment methods, product sorting by category, user profile, return process, and order tracking. • Designed the seller-side interface including authentication, dashboard, order management, product management, client data, payment method settings, and seller profile.
<b>OXI (Owner XMAX Indonesia)</b>	<b>UI/UX Designer</b>	<b>Remote</b> <i>Apr 2025 - May 2025</i>
		• Designed mobile application interfaces using Figma. • Iterated designs based on specifications and functional requirements. • Created interface designs for splash screen, user authentication, event listings, shopping features, articles, and member lists. • Developed interactive prototypes to visualize user flows.
<b>Parking System</b>	<b>Project Leader &amp; IoT Developer</b>	<b>Remote</b> <i>Apr 2024 - Jul 2024</i>
		• Led and coordinated a team of 3 members in project planning. • Implemented RFID technology for user authentication, controlling the servo motor, and displaying access status through the I2C LCD. • Integrated Arduino hardware and software to ensure optimal system performance.
<b>FinFix</b>	<b>Fullstack Mobile Developer</b>	<b>Remote</b> <i>Oct 2023 - Dec 2023</i>
		• Developed a mobile financial recording application using Kotlin. • Created the application's interface design using XML. • Implemented app features, including user authentication and RecyclerView. • Integrated Firebase Realtime Database to handle data storage.
<b>Smart Lamp</b>	<b>Project Leader &amp; Full Stack Developer</b>	<b>Remote</b> <i>Dec 2022 - Jan 2023</i>
		• Led a team of 3 members, coordinated tasks, and delivered the project on time. • Designed an Arduino system to control lamp switches via a local web interface using the ESP8266 module. • Developed a web interface and programs to control IoT devices.

## EDUCATION

Education	Period
<b>IT LEARNING</b>	<b>Mar 2024 - Jul 2024</b>
Additional course concentration in Computer and Network Security (CNS).	
• Learned intercepting and testing HTTP requests using Burp Suite. • Studied web exploitation techniques such as SQL Injection, Cross-Site Scripting (XSS), CSRF, and Denial of Service (DoS) simulation. • Performed vulnerability scanning and reconnaissance using Nmap. • Created web vulnerability reports detailing findings, risk assessments, and recommendations.	
<b>Bangkit Academy led by Google, Tokopedia, Gojek, &amp; Traveloka</b>	<b>Aug 2023 - Dec 2023</b>
Independent Study in Kampus Merdeka	
• Mobile Development Cohort • Capstone: Financial Tracking Application • Learned life path and soft skills development to support a professional career. • Courses: Android/mobile app development, such as Kotlin, animation, localization, database, testing, Firebase, Jetpack Compose, API integration, and local storage.	
<b>Universitas Teknologi Bandung</b>	<b>Sep 2021 - Aug 2025</b>
Bachelor of Computer Science - GPA 3.42/4.00	
• Thesis Title: <i>Pembangunan Aplikasi Finfix Untuk Pencatatan Keuangan Berbasis Android</i>	

- Courses: Database, Web Development, Android Development, Algorithms, Ethical Hacking, Computer Networks, Network Security, and Internet of Things (IoT).
- Studied programming languages and tools such as Linux, SQL, Python, HTML, JavaScript, CSS, Java, etc.

## ORGANIZATION

---

**Himpunan Mahasiswa Teknologi Informatika**

*KOMINFO, Media Kreatif - Universitas Teknologi Bandung*

Mar 2024 - Jan 2025

- Managed TikTok and Instagram accounts of Himpunan Mahasiswa Teknologi Informatika (HIMATIF).
- Create promotional and information content through TikTok and Instagram.
- Planned, coordinated, and executed various organizational events, from initial planning to final evaluation.
- Led a division in a specific event by coordinating team members and managing divisional activities.

## SKILLS

---

- **Soft Skills:** Communication, Problem Solving, Teamwork, Leadership, Time Management, and Adaptive.
- **Hard Skills:** Customer Service, Content Ideation, Adobe Premiere Pro, VLOOKUP, Data Entry, Computer Troubleshooting, and Networking.
- **Tools:** Visual Studio Code, Microsoft Office/Google Workspace, Notion, Trello, and Canva.
- **Certificate:** Bangkit Academy 2023, Network Security Associate, and Project Integration Methodology of Excellence, and TOEFL.
- **Language:** English at advanced level.
